Custom 3D Printed Camera Housings

IMPORTANT - RING INDOOR CAMERA GEN 2 ONLY

This housing is made specifically for the Ring Indoor Camera, Generation 2. It is not designed to fit any other Ring camera models.

Your Ring Indoor Camera (Generation 2) should fit comfortably and securely in the housing, as shown above. The camera should sit inside the housing with the housing walls clearly visible around it.

This housing is designed only for the Ring Indoor Camera Gen 2 and will not fit Ring Stick Up Cameras, Ring Outdoor Cameras, or other Ring models.

If your camera does not fit as expected, please do not force it or modify the housing. Simply contact me with a clear photo of the model number printed on your camera, and I will be happy to help and arrange an exchange if needed.

Thank you for your purchase and for supporting small, custom made products.
