

Ring Outdoor Cam Plus Birdhouse Camera Housing Installation

Designed & Printed by TML Fun Creations

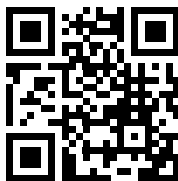

Step 1 – Remove the housing roof to access the interior.

Step 2 – Insert the Ring Outdoor Cam Plus into the internal mount, aligning the camera lens with the front opening.

Step 3 – Secure the camera using the adjustment knob until snug. Do not overtighten.

Step 4 – Route the power cable through the rear opening if using a wired setup.

Step 5 – Reinstall the housing roof and confirm the camera has a clear, unobstructed view.
