Ring Spotlight Cam Version 1 Housing

Installation Guide

Remove the factory mounting base, install the housing mounting plate, and secure the camera as shown below.

Step 1a Locate the mounting base release button

Step 1b Push in and hold the release button

Step 1c Keep the button pressed while sliding the mounting base down to the bottom of the camera

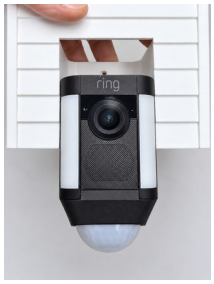

Step 1d Slide the factory mounting base off

Step 2a Align the provided mounting plate

Step 2b Slide the plate fully into place

Step 3 Insert the camera from the outside into the housing. It is designed for a snug fit.

Step 4a Locate the provided thumbscrew.

Step 4b Install the thumbscrew in the second hole from the bottom. Tighten until snug. Do not overtighten.

Important The snug fit prevents camera movement. Do not force the camera or overtighten the thumbscrew.
